Family of the Month

Meet Jonathan

At first, Jonathan’s mother, Rachel, wasn’t too concerned he wasn’t meeting language development milestones. “Jonathan’s oldest brother had been a late talker.” At Jonathan’s 18-month well child visit, his pediatrician recommended services were needed to help him communicate verbally. Jonathan was eventually diagnosed with Autism and started coming to Autism ETC. “Once Jonathan began coming full time to the center, he really made progress. The staff at Autism ETC was able to help Jonathan learn how to use his communication device and have focused on him developing his verbal communication skills.”
