

SPOTLIGHT STORY

Hunter Jones Attends Glendale Clinic

"Hunter is thriving at school and with ABA therapy."

Hunter's mom says he was having behavioral difficulties and rough times at home before he started attending Autism ETC in January 2024.

She found Autism ETC online and says, "I just knew this was the right place for Hunter."

Hunter originally attended Autism ETC five days a week, but since starting school, he's moved to attending two afternoons a week.

"Hunter is now using his words to communicate and can clearly express what he wants. He does this not only with us at home but also with his teachers and classmates."

You can read more of Hunter's story on our website.
