

## **SPOTLIGHT STORY**

### **Jeni Donoho**

#### **Client Services Director**

Almost all of the families that have contacted Autism ETC since September 2020 have experienced a meeting by phone with Jeni Donoho, Autism ETC's Client Services Director.

Jeni shares her story of how she came to Autism ETC: "I grew up in Southern California and attended California Baptist University, where I received my degree in liberal studies and early childhood development.

After college, I began working as an in-home behavior therapist from 2008-2013. I transitioned into administrative work with Easter Seals of South California, working in their scheduling department.

As I grew in this position, I served as an administrative assistant to the Director of Intake & Scheduling and eventually became the scheduling trainer."
